WASH

GS 053 / 054 / 055

PURE SHAMPOO

Available in: 500ml / 1000ml / 5000ml

CONCENTRATE PRODUCT

How to use?

1. Rinse the car with water under presure
2. Pour 30-40ml of product into a bucket for every 10l of water
3. Mix the shampoo with water (use a stronger water stream to create foam)
4. Wash the car with a microfiber glove / sponge from top to bottom
5. Rinse the car under pressure
6. Dry the car

Neutrual pH shampoo. The product provides superb gliding and foaming properties. Thanks to its neutral pH its totally safe to coated or waxed paint. Better work comfort improved by cookies scent and low drying out solution structure.

GS 056 / 057 / 058

SOUR SHAMPOO

Available in: 500ml / 1000ml / 5000ml

CONCENTRATE PRODUCT

How to use?

1. Rinse the car with water under pressure
2. Pour 20-50ml shampoo into a bucket for every 10l of water
3. Foam the Shampoo with a strong stream of water
4. Wash the car with a microfiber glove / sponge from top to bottom
5. Rinse thoroughly and dry the car

Sour car shampoo without any waxes and polymers in the composition. Thanks to its acidic pH, which is 3.5 in the concentrate, it is safe for cars with applied coatings and waxes. Its additional advantages include superb gliding and foaming properties. For better work comfort, the composition has been enriched with a cherry scent.

GS 068 / 069

SNOW FOAM

Available in: 1000ml / 5000ml

CONCENTRATE PRODUCT

Concentrated active foam. Thick and stable foam combined with a neutral pH, safe for any cleaned surface. For better working comfort our product has been enriched with a pleasant fragrance. For best user experience use with high preasure foam gun or hand foam sprayer.

How to use?

1. Apply on a dry wehicle
2. Apply with a foam gun
3. Cover whole cleaned surface
4. Rinse it off with a high pressure after 5-7mins

Available in:

GS 071 / 074 / 121

SNOW FOAM

CONCENTRATE PRODUCT

Available in: 1000ml

Concentrated active foam. Thick and stable foam combined with a neutral pH, safe for any cleaned surface. For better working comfort our product has been enriched with a pleasant fragrance. For best user experience use with high pressure foam gun or hand foam sprayer. The recommended dilution is from 1:9 to 1:5.

GS 135

SOUR FOAM

Available in: 1000ml

CONCENTRATE PRODUCT

Concentrated acidic pH foam. This improved formula delivers powerful cleaning action, outperforming neutral pH foams while ensuring extended adherence to the vehicle's paint. Especially suitable for ceramic-coated vehicles or as part of the pre-application process for such coatings.

How to use?

1. Rinse the car with water under presure
2. Apply with a foam gun
3. Cover whole cleaned surface
4. Rinse it off with a high pressure after 5-7mins

GS 030 / 031 / 032

GLASS CLEANER

Glass cleaner with very good cleaning properties. Enriched with a pleasant kiwi and grape scent for better work comfort. Thanks to its special properties, it degreases and leaves no streaks on the glass. It contains no Ammonia and methanol. Very easy to use, just spray the glass and wipe it dry with microfiber. Then polish with the other side of the microfiber until a satisfactory result is obtained.

Available in: 500ml / 1000ml / 5000ml

GS 007 / 008 / 009

MICROFIBER WASH

Washing microfibers dedicated agent. It restores absorbency to washed microfibers and helps to maintain their properties. The agent has been dermatologically tested. When used regularly, it significantly extends life span of used cloths, microfibers and drying towels.

How to use?

1. Use 50ml product for one wash (5kg)
2. In the case of heavy dirt, soak a cloth in 1L of warm water with 50ml of the product, leave for 30-40 minute
3. Wash in a washing machine at 40-60 degrees

Available in: 500ml / 1000ml / 5000ml

GS 167 / 168

BUG BUSTER

Highly effective insect remover for use before washing. Dissolves bugs, sap, and bird droppings without affecting waxes or coatings. Safe for paint, glass, and plastic. Easy to apply and rinse. pH 11 alkaline formula for powerful cleaning.

How to use?

1. Spray generously onto a cool car surface
2. Wait 30 seconds — do not let it dry
3. Rinse thoroughly with water or pressure washer
4. Repeat if needed for stubborn residues

Available in: 500ml / 1000ml

GS 118

WASH KIT

KING XS

The modern solution to your car and motorcycle drying needs. Made with a unique Korean “Twisted Pile” microfiber, this towel boasts an incredibly high absorbency and quick-drying fibers, ensuring that your vehicle is dried quickly and efficiently.

ZEPHYR WAFFLE TOWEL

A top-quality waffle weave microfiber towel perfect for cleaning car windows and other glass surfaces. The unique waffle structure of this towel ensures that it leaves no scratches, streaks or stains on the glass surface.

TIRE DRESSING SHINE 250ml

GLASS CLEANER 500ml

IRON REMOVER 500ml

STORM

The ultimate car washing glove for professional auto detailing and car enthusiasts alike. Its elastic cuff ensures a secure fit, preventing the glove from slipping off your hand while you wash your car.

PURE SHAMPOO 500ml

CLEAN HANDS APPLICATOR

The ultimate solution for applying tire dressing with ease and precision. Our high-quality sponge and ergonomic shape are designed to fit perfectly in your hand, providing a comfortable and efficient application experience.

GLOSS DETAILER 500ml

CLASSIC BRUSH 24 mm

It is the perfect tool for cleaning rims, prewash, and car interiors. With a varnished plastic handle and natural/synthetic bristles.

02

EXTERIOR

GS 142 / 143 / 144

TRAFFIC FILM REMOVER

CONCENTRATE PRODUCT

Concentrate product for pre-washing paintwork and rims. It removes road film accumulated on the car body while driving and prepares the vehicle for the actual washing. Unlike active foam, the product is applied by spraying with a pressure sprayer. The product dissolves dirt much quicker (approximately 2-5 min.) and is a stronger alternative to classic active foam.

Available in: 500ml / 1000ml / 5000ml

GS 026 / 027

SHOW DETAILER

Carnauba based quick detailer, which is natural origin wax. Created for maximum paint gloss improvement. Its main features is strong paint darkening and slipping effect with deep colour saturation. Applied to paint provides hydrophobic effect. Easy application with fruity scent for better work comfort. Up to 3 weeks durability.

How to use?

1. Apply on a dry wehicle
2. Apply with a foam gun
3. Cover whole cleaned surface
4. Rinse it off with a high pressure after 5-7mins

Available in: 500ml / 1000ml

GS 022 / 023

GLOSS DETAILER

Synthetic Quick Detailer designed for easy and quick paint protection. Its main feature is to give paint a high gloss. When applied, it provides a hydrophobic effect. Its advantages include ease of application and a fruity fragrance that improves work comfort. Up to 4 weeks durability.

How to use?

1. Apply on a dry wehicle
2. Apply with a foam gun
3. Cover whole cleaned surface
4. Rinse it off with a high pressure after 5-7mins
5. Polish with the other, dry side of the microfiber cloth

Available in: 500ml / 1000ml

GS 036 / 037

Double Set

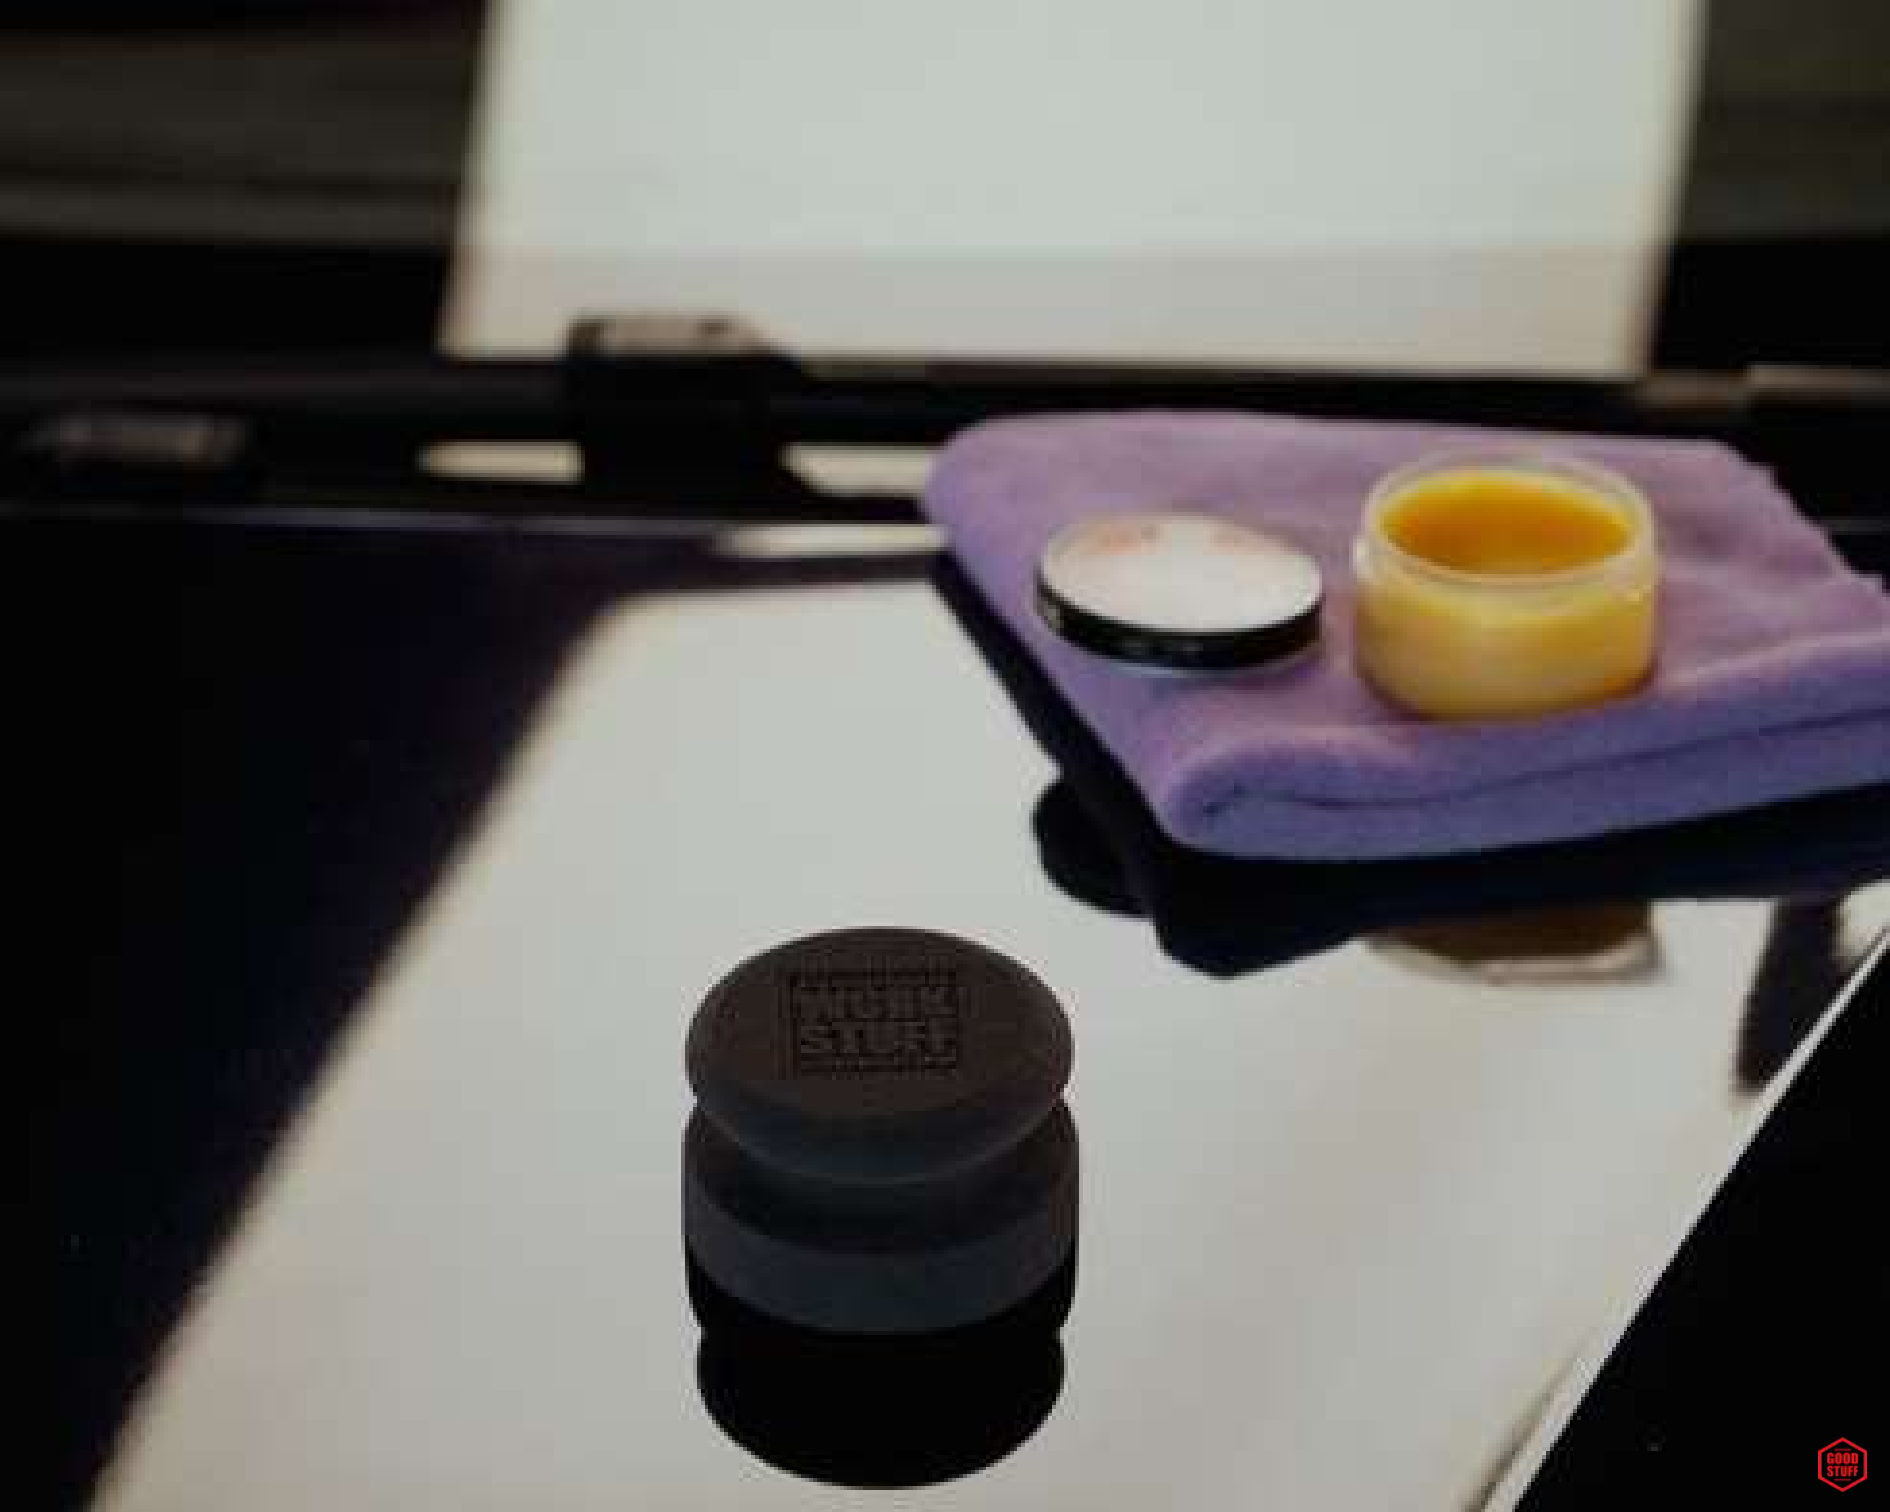
SHOW WAX

Available in: 50ml / 100ml

Carnauba containing wax with a natural based origin wax. It was created in order to properly protect paint and give additional colour saturation. It protects against road grime and other harmful factors. As a result, the car gains a superb wet appearance. Provides a strong hydrophobic effect. The advantages include easy application and a citrus scent that improves work comfort. A dedicated WORK STUFF applicator included in the set for 50ml and 100ml.

How to use?

1. Apply to clean and dry car paint
2. Apply a thin layer of wax to the surfae with an applicator
3. Wipe wax with microfiber after about 5-10 minutes



GS 164

ICE BREAKER

Effective windshield de-icer without the need for scraping. Works instantly, removing ice in seconds. Safe for glass, plastic, paint, and coatings. Leaves no streaks or residue. Perfect for winter mornings - just spray and wipe.

How to use?

1. Remove excess snow from the surface
2. Spray evenly over the frozen surface
3. Wait a few seconds (or longer if the ice layer is thick)
4. Wipe away the melted ice

Available in: 500ml

GS 051

CLAY KIT

CLAY LUBE 250ml

Clay lube product for smooth paint clay glidinig. Speeds up claying process. Clay bar safe. Fruity scent for better work comfort.

SPOT CLAY BAR 50gr

Medium-hard bar effectively removes impurities such as brake dust, tar, and tree resins, leaving a smooth and refined finish on your vehicle.

GS 169

TRINITY

Trinity is a modern protective coating compatible with paint, PPF film, plastic, carbon and metal. The coating is designed for easy and safe application. Its formula, based on nanodiamonds, carbon nanotubes and an elastic matrix, creates a durable, glossy protective layer with a hydrophobic effect, resistance to UV radiation and micro-scratches.

03

INTERIOR

GS 148 / 149 / 150

APC

Concentrated multi-purpose product with increased cleaning power for various surfaces in a car. Thanks to it's wide range of application, it will be perfect for cleaning tires and rims, interior and exterior trim, engine bay, floor mats etc. It can be used as a prewash agent. 05

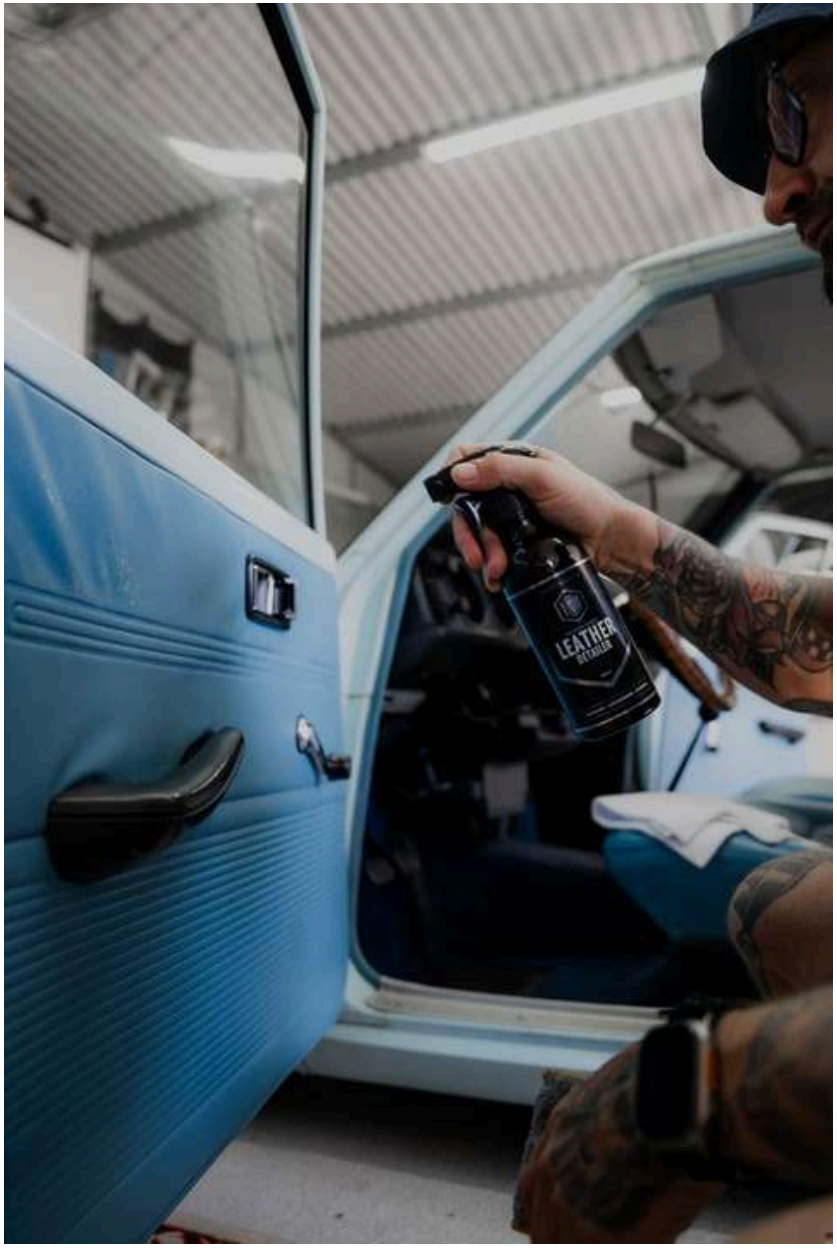
PASSION SERIES

GS 165 / 166

LEATHER DETAILER



2-in-1 product for cleaning and caring for leather. Leaves a dry, matte, and non-greasy finish. Removes dust, fingerprints, and light dirt. Safe for all car leathers. Ready to use – just spray and wipe. Ideal for daily interior care.

How to use?

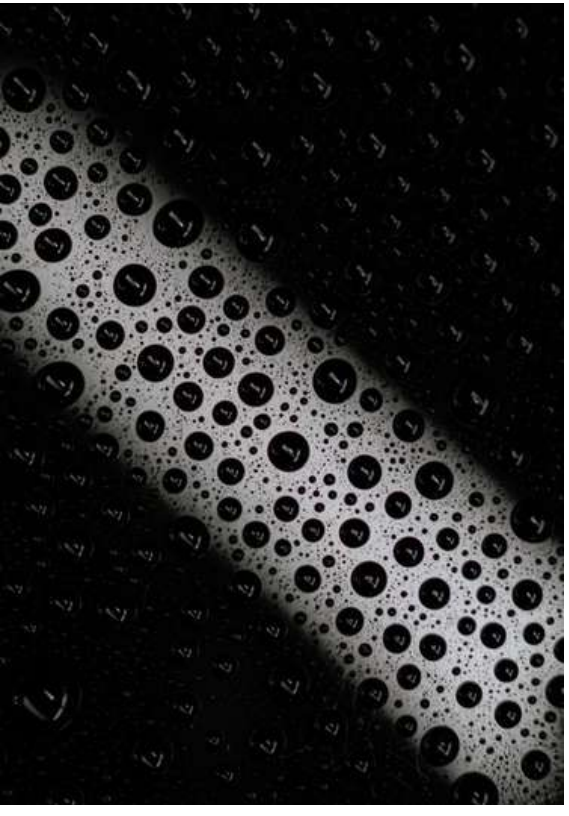
1. Spray directly onto the surface or a cloth
2. Gently rub in circular motions
3. For more thorough cleaning, use a soft brush
4. Allow the surface to dry naturally

Available in: 500ml / 1000ml

GS 128 / 129 / 130

SIO2 DETAILER

SiO2 based Quick Detailer created for easy and fast paint protection. Provides high gloss and hydrophobic effect. Pleasent man perfume fragrance for better work comfort. Up to 4 weeks durability.



How to use?

1. Shake the bottle before use
2. Apply the product in the shade and on a cool car paint
3. Spray microfiber or car paint and spread the product
4. Reach the other side of the microfiber

Available in: 250ml / 500ml / 1000ml

GS 131 / 132 / 133

INTERIOR DETAILER

Interior Detailer a Quick Detailer designed for interior maintenance with cleaning and protecting properties. In one step cleanes and protects car's interior surfaces. All interior trim safe. Leaves hydrophobic protective layer. Additionaly makes surface antistatic and protects against UV radiation. Ideal for those who don't want to use two separate products, one for cleaning and other for protection. Once applied leaves a pleasent man's perfume fragrance.

Available in: 250ml / 500ml / 1000ml

GLASS CLEANER
SUPREME
GS 158 / 159 / 162

Glass Cleaner Supreme is a cleaning liquid unlike any you've used before. It contains 50% more alcohol than standard products on the market, yet it doesn't emit a harsh odor, making it pleasant to use. It's probably the best ready-to-use solution for cleaning windows, mirrors, and other glass surfaces in cars, homes, and offices. It effectively removes nicotine film, e-cigarette residue, fingerprints, and even insects—making it perfect for situations where standard glass cleaners fail. The product evaporates quickly, so it's important to wipe the surface immediately with a second microfiber cloth, cleaning the glass in small sections. Thanks to its fast-evaporating formula, the glass cleaning process becomes quicker and more efficient, leaving a streak-free finish. The product is also excellent for preparing glass surfaces for the application of any type of protective coating.

Available in: 500ml / 1000ml / 5000ml

GS 156 / 157 / 163

AQUA SOFT SHAMPOO

CONCENTRATE PRODUCT

Available in: 500ml / 1000ml / 5000ml

It is a specialized shampoo designed for effective washing. Thanks to its carefully selected ingredients, it effectively softens water, reducing mineral deposits by up to 50% – resulting in significantly fewer water spots! This is especially noticeable when using water of suboptimal quality. It's an excellent solution for the summer season when washing becomes more challenging. The most important feature of this shampoo is its ability to be used outdoors, even in high temperatures (of course, in a shaded area). Despite its high density, the product is easy to dose, as you'll notice how easily it rinses out of the measuring cup. The formula prevents the formation of hard water spots while providing a smooth washing experience. This is important because some products used to remove deposits from evaporating water can cause significant friction, leading to pressing harder with the sponge and resulting in micro-scratches. This product is designed for safe use on protective coatings, chrome surfaces, painted surfaces, PPF films, headlights, waxes, and quick detailers. Its neutral pH is gentle on every surface of your car.
